About

In 2018, I graduated from secondary school number 281 named after V. Mirzaliyev, and was admitted to the Computer Science of Azerbaijan Technical University. In 2022, I was admitted to the Computer Engineering Master's program in Computer Engineering at the same university. Between 2020 and 2021, I worked as a salesman at Bine t\m. I also studied Full-Stack Web Developer at Compar Academy. After graduating from the academy, I worked as a C# backend developer intern at WebConsole studio.
